8. Market how supplied.

9. Progress of agricultural operations, stage of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity. Number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE

8. Well supplied.

9. *Standing Crops.*—Ragi, avare, togari, groundnut, paddy and sugarcane are fair.

2. *Harvest*—Nil.

3. *Crops sown*—Nil.

10. Coolies find sufficient labour.

11. Cattle are reported to be generally healthy. Fodder is available.

KOLAR

8. Moderately supplied.

9. 1. *Seeds sown.*—Nil.

2. *Standing Crops.*—Ragi, paddy, avare, thogari, sugarcane and groundnut are reported to be in good condition but they are in need of good rains urgently.

3. *Crops harvested.*—Irrigated ragi and potatoes are being harvested.

10. Prospects of the season are hopeful. There was some rainfall during the week in some Taluks.

Fodder and water are available for cattle.

11 People and cattle are reported to be healthy but for prevalence of epiyotic aphta in some parts of Sidlaghatta Taluk. Preventive measures have been taken to check thespread of the epidemic by the Animal Husbandry Department.

TUMKUR

8. Fairly well supplied.

9 *Seeds sown.*—Horsegram in some parts of Tiptur, Madhugiri and Pavagada Taluks.

Standing crops.—Paddy, sugarcane, ragi, avare, thogari jola, navane and groundnut are reported to be in good condition throughout the District.

Crops harvested.—Kar ragi in some parts of Pavagada and Sira Taluks, and paddy in some parts of Chiknaikanhalli Taluk.

Public Health.—Generally good except for the prevalence of small-pox in Navile, Yakoobsaheb Palya and Marasandra Villages in Chiknayakanahalli Taluk, Jakkenahalli in Tumkur taluk, Hosakote and Byadanur Villages in Pavagada Taluk. Preventive measures are taken to check the spread of the disease.

10. Fair.

11. Cattle are reported to be generally healthy throughout the district except for the outbreak of Blackquarter at Honnenahalli in Sira Taluk. Preventive measures have been taken to check the spread of the disease. Water and fodder are available. Labour available for cooly classes.

MYSORE.

8. It is reported that the markets are fairly well supplied n all the taluks of the District during the week.

9. *Seeds sown:*—Sowing of paddy and horsegram have commenced in Chamarajanagar Taluk. Transplantation of paddy is in progress in T.-Narsipur and Hunsur Taluks.

Standing crops.—Such as paddy, ragi, castor and thogari are reported to be generally in good condition. But ragi crop in Gundlupet Taluk has been affected with a pest of "Cut Worms". Agricultural Department has taken necessary measures to check the spread of the disease by the use of chemicals. The disease is under control. Similarly the ragi crop in Periyapatna Taluk has been affected with a pest of worms. Agricultural Department have been addressed to take necessary measures to check the spread of the disease.

Crops harvested.—Harvest of jola has commenced in Nanjangud, and Gundlupet Taluks; and ragi in Heggaddevankote and Hunsur Taluks.

10 (1) The prospects of the season are fair in all taluks of the District except in Gundlupet Taluk. The Amildar, Gundlupet Taluk reports that the situation in this taluk is deteriorating as rains have held up.

(2) The rainfall in all the taluks is insufficient during the week.

(3) The situation in the affected Taluks continues to be the same as in previous week. The position in Gundlupet Taluk is reported to be bad.

(4) Cooly classes find sufficient labour throughout the District except in Gundlupet Taluk and it is reported that the earning capacity of Agricultural classes in this taluk is reduced and the starting of relief works is necessary to provide employment to the labour classes and Agriculturists. Necessary arrangements have been made to start immediately, certain relief works in consultation with Public Works Department.

(5) Sufficient quantity of foodgrains are made available in all the taluks of the District during the week. However, the rush of people in the Depots is on the increase.

11. Cattle are reported to be generally healthy. Water and fodder are fairly available in all the Taluks of the District except in Gundlupet Taluk. It is reported that there is difficulty for drinking water in Gundlupet Taluk and there is necessity to further deepening of the existing wells. Necessary further action will be taken in this behalf.

MANDYA.

8. Well supplied.

9. The standing crops of ragi and paddy are reported to be in good condition throughout the district. Transplantation of paddy is still going on in some parts of Maddur and Srirangapatna Taluks.

Kar ragi and kar paddy are reported to be under harvest in some parts of Malavalli Taluk.

10. Prospects of the season are reported to be fair.

11. Public health is reported to be generally good throughout the District. Cattle are also reported to be generally healthy in all the taluks. Water and fodder are available in sufficient quantities.

HASSAN.

8. Well supplied.

9. Standing crops like paddy, ragi, groundnut and sugarcane in Hassan Taluk, ragi, paddy and sugarcane in Arkalgud, Belur, Chennarayapatna and Hole-Narsipur Taluks, Paddy and ragi in Arsikere and Alur Taluks are in good condition.

Potato is harvested in Hassan Taluk.

10. Rainfall is quite sufficient for the dry crops. But tanks have not received sufficient supply of water for irrigation purposes.

The prospects of the season are quite hopeful.

11. Cattle are generally healthy.

Water and fodder are available.

SHIMOGA.

8. Generally well supplied.

9. Weeding operation is going on in Shikaripur Taluk. Transplantation of paddy crop is being completed in Hosanagar and Thirthahalli Taluks. Standing crops of paddy, sugarcane, ragi, jola, save and groundnut are reported to be in good condition.

10. Prospect of the season is generally good. There were three deaths out of four attacks of plague in Nyamathi, Honnali Taluk.

The District Health Officer has been addressed in the matter.

11. Cattle are healthy.

Water and fodder are available.

CHIKMAGALUR.

8. Markets were well supplied, but the prices were very high. Certain commodities like til were not available in the market.

9. (i) *Standing crops.*—Paddy, ragi, jola, sugarcane, potato, groundnut, avare, onion and garlic in Chikmagalur Taluk; paddy, ragi, jola, sugarcane, avare, togari, save,

navane, cotton, castor, groundnut, horsegram and greengram in Kadur Taluk; paddy, ragi, jola, sugarcane, groundnut, avare, til, coriander, and minor millets in Tarikere Taluk; paddy and sugarcane in Koppa and Narasimharajapura; paddy in Mudigere Taluk; paddy and areca in Sringeri Jahgir. Koleroga on areca in Sringeri Jahgir was brought under control.

(ii) *Crops sown* :—Horsegram in Tarikere Taluk was sown. Paddy was being transplanted in Tarikere, Mudigere and Narasimharajapura Taluks.

(iii) *Crops harvested.*—Potato and ragi in Chikmagalur Taluk; coriander, til, and bengalgram in Kadur Taluk; groundnut in Tarikere Taluk.

Condition of the standing crops was generally good throughout the District. Koleroga on Sringeri Jahgir on areca was brought under control by spraying operations.

10. Public Health was generally good.

11. Except for the prevalence of rinderpest, foot and mouth disease on cattle in certain parts of Mudigere Taluk. Cattle were generally healthy. Veterinary Department was addressed to take preventive measures.

Fodder, water and labour were available in sufficient quantities throughout the District.

CHITALDRUG.

8. Markets are reported to be well supplied except controlled commodities.

9. *Sowing.*—Sowing of cotton and navane in Hiriyur and Holalkere Taluks is reported to be in progress.

Standing Crops.—Ragi, jola, navane and cotton in Chitaldrug Taluk; doddaragi in Chellakere Taluk; sugarcane, haraka, and mungari jola in Hiriyur Taluk; kesari jola, ragi, togari, til, chillies and paddy in Holalkere Taluk; jola, navane, groundnut, sajje, etc., in Jagalur Taluk; cotton, groundnut, ragi, jola, navane, thogari, greengram and horsegram in Harihar Taluk are reported to be in good condition.

Harvesting.—Harvesting of giddaragi in some parts of Chellakere and Hiriyur Taluks is reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the District.

11. Cattle are reported to be generally healthy throughout the District.

Water is available throughout the District.

Fodder is available throughout the District, except in some parts of Jagalur and Challakere Taluks. Fodder is being supplied and sold by private persons on every shandy day at Challakere.

N. V. SIDDALINGAPPA,
For Director.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 7TH SEPTEMBER 1950.

A total of 3 attacks with 1 death from plague was returned from 2 villages in 2 taluks in Bangalore and Mysore Districts during the week against 10 attacks with 3 deaths in the previous week. Cities of Bangalore, Mysore and Kolar Gold Field Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 46 attacks with 19 deaths and 52 attacks with 25 deaths, respectively.

A total of 8 attacks with nil death from Small-pox were reported from Bangalore Corporation and from Bangalore South and Nagamangala Taluks.

Thirteen attacks with 8 deaths from Cholera were reported from Bangalore Corporation and Mulbagal Taluk.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 249 (82 in hospitals) for 7 days representing a calculated death-rate of 25·8 (17·3 excluding hospital deaths) per mille of population (annual basis) as against 28·2 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Small-pox, 1 under Cholera, 4 under Typhoid, 10 under Other Fevers, 10 under Phthisis, 28 under Dysentery and Diarrhœa and 195 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 73 (55 in hospitals) for 7 days representing a calculated death-rate of 19·5 (4·8 excluding hospital deaths) per mille of population (annual basis) as against 28·3 for the corresponding week of last year. Classified according to causes the deaths were Typhoid 1, Other Fevers 8, Dysentery and Diarrhœa 3 and All Other Causes 61. The reported mortality was very low.

4810 T. CHANDRASEKHARAIYA, *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

Notification dated 18th September 1950.

(HEALTH OF LIVE-STOCK DURING AUGUST 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicæmia, foot and mouth, contagious-goat-pleuro-pneumonia, rabies, ranikhet, and sheep-pox were encountered in the State during August 1950. Altogether 258 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 335 villages during the previous month. The number of outbreaks was highest in Bangalore, Kolar and Mysore Districts, while Chikmagalur, Hassan and Shimoga were least affected. These diseases accounted for 838 attacks, of which 622 succumbed as against 1,103 attacks and 887 deaths during the previous month. The departmental staff conducted 70,481 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against foot and mouth disease.

As many as three outbreaks of rinderpest of which two were among sheep, were registered in Honnali, Sagar and Shimoga Taluks accounting for 64 attacks and 58 deaths. Prompt measures of control were undertaken by the department to check its spread and 43,432 cattle and 169 sheep and goats were protected against the disease, both in the infected villages and in their immediate neighbourhood

extending over a radius of three miles. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 119 villages resulting in 39 deaths, as against 100 villages accounting for 22 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 6,429 animals, as against 7,334 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.
